MySQL Assignment – 7

1. Display *customer* names with all the vowels removed from *customer* table :

Query :

```
select  
replace(replace(replace(replace(replace(replace(replace(replace(replace(replace  
(replace(cname,'a',''),'e',''),'i',''),'o',''),'u',''),'y',''),'A',''),'E',''),'I',''),'O',''),'U',''),'Y','')  
as "NO VOWELS" from customers;
```

2. Implement “INITCAP” in MySQL :

Query :

```
- select concat(upper(substr(cname,1,1)),lower(substr(cname,2))) from customers;
```

3. Centre justify a string. (Pad from RIGTH as well as LEFT).

Query :

```
- select rpad(lpad(sname,18,' '),18,' ') from supplier;
```
